portant topics without the fear of losing a  
little patronage.

The weather has been exceedingly cold  
the past few days, the thermometer reg-  
istering as low as 28°.

Some of the bids for the care of the

about one-half of the contract price of  
last year.

Nearly every chlorider in White Hills  
is making money. The ore of that  
camp is very rich and it pays the boys  
well when they find it.

A flock of wild geese rested near town  
Tuesday night. They were up and away  
the next morning before the local nim-  
rods got their gatling guns trained on  
them.

Will Clack, Frank Meadows, Al H.  
Anderson, Hank Leffler and William  
Heimrod went down to Needles to at-  
tend the Knights of Pythias ball at that  
place Monday night. They report a  
good time.

The ball at Needles Monday night is  
described by those who attended from  
this place as one of the most enjoyable  
affairs they had ever attended. Owing  
to the financial depression existing in  
this county the delegation from Kingman  
was not as large as it would otherwise  
have been.

Harver Hubbs went out to White Hills  
Wednesday morning. We understand  
that he and Ed. Thompson have taken a  
lease on the Free Coinage saloon at the  
Hill and will open the house up in about

out Mohave county and we, as well as  
his other friends hope he will do well in  
his new location.

Frank Meadows is at Needles nursing

The El Paso Bullion will hereafter be

Needles this evening to see his brother.

mantle.

About \$9,000 have so far been paid in  
in taxes to the collector. The railroad  
company has agreed to pay its taxes on  
or before the 15th.

Jesse Gilliland is very ill with pneu-  
monia at White Hills. Jesse's many  
friends around Mineral Park will regret  
to hear of his sickness.

The dance at the courthouse Monday  
night was well attended by the ladies of  
Kingman, but the absence of young men  
was a noticeable feature.

The Misses Lizzie Orm and Fannie  
Gaddis, who have been spending the  
holidays with Mrs. E. F. Thompson,  
went over to the Park Tuesday morning.

E. J. Montrose was arrested on com-  
plaint of Patrocino Quinones Tuesday  
on a charge of using vulgar language.  
He was tried by a jury Thursday and  
acquitted.

Dr. D. W. Reese, of Needles, was called  
by wire last night to attend Mrs. Willis  
Baker, who is ill with pneumonia. He  
says that Mrs. Baker is suffering from  
pleurisy and pneumonia.

Judge J. R. Russell and wife have re-  
turned to Kingman from San Francisco.  
The Judge has almost fully recovered  
from his protracted illness. His friends  
were all glad to see him back again.

J. A. Healy, owner of some valuable  
mining claims in the southern part of  
this county, came in from Prescott Wed-  
nesday night. He has gone to Signal  
and from there will go out to his mines  
near Potts mountain.

The board of supervisors refused to let  
a contract for the year 1894 for the care  
of indigent sick. The clerk was directed  
to correspond with California hospitals  
to ascertain the lowest rate the sick of  
this county could be cared for in that  
state.

Charles Gross and Peter Schell have  
been working on a gold claim about one  
hundred yards north of the old Gross  
house at Cerbat. From a nine days run  
of an arastra they cleaned up nine  
ounces in gold. The ledge is of good  
width and the ore shows much free gold.

J. M. Barrett, road overseer of the  
Sandy road district, was in Kingman  
this week making his quarterly settle-  
ment with the board of supervisors. Mr.  
Barrett has been the most active over-  
seer in the county, having collected more  
money for road purposes than any other.

A sneak thief slipped into the room of  
Byron Sherman the other evening and  
appropriated his Sunday coat and hat.  
Mr. Sherman was asleep when the thief  
was in the room, but was awakened by  
the fellow attempting to search under his  
pillow for his valuables. He rolled over  
in bed and looked up sleepily at the  
fellow, who immediately decamped.

Deputy Sheriff Morrell went down to  
Shipp's ranch last Sunday to arrest  
Thomas B. Shipp, who was indicted by  
the U. S. grand jury last week. The  
deputy returned Tuesday morning and  
Mr. Shipp came down from Hackberry  
in the evening of the same day. The  
arrest of Mr. Shipp is an outrage and the  
outcome of spite on the part of a man  
whom Mr. Shipp has befriended in many  
ways. The facts in the case are as we  
represented them to be in our issue of last  
week. Shipp went over to Prescott and  
had the case continued for the term.

For pains in the chest there is nothing  
better than a flannel cloth saturated with  
Chamberlain's Pain Balm and bound on  
over the seat of pain. For sale by

## Charley Anderson Shot.

Last Monday afternoon while out fish-  
ing in a boat on the Colorado river, Char-  
ley Anderson was shot through the arm  
by the accidental discharge of a shot gun.  
The gun was in the bottom of the boat  
and in the excitement of pulling in a  
fish he accidentally struck his foot against  
the hammer and discharged the weapon.  
The charge of No. 6 shot passed through  
his arm below the elbow, tearing away  
the flesh and muscles in a horrible man-  
ner. His companion in the boat at the  
time was Alfred Conkey, who was too  
much frightened to be of any service,  
and but for the timely assistance of Ben  
Paddock, a half breed Indian, he would  
have bled to death. Mr. Paddock took  
the wounded boy to Needles and he was  
placed in the railroad hospital. Drs.  
Reese and Himoe soon had the wound  
dressed, but were uncertain about sav-  
ing the arm. Mrs. Ryan, the wounded  
boy's mother, was telegraphed for and  
left for Needles on first train. She found  
the boy getting along as well as could be  
expected and that some friends were  
caring for him. At last accounts it was  
thought the boy's arm would be saved.  
Drs. Himoe and Reese, who have charge  
of the case, are careful, pains-taking  
physicians who will do all in their power  
to bring the youngster around all right.

While we recognize the fact that the  
care of the indigent sick of this county  
has been a fearful drain on the tax pay-  
ers we do not think that sending patients  
into California will prove successful.  
Old residents of this county who are sick  
and indigent will not become a county  
charge until they are in the last stages  
of disease and then they cannot be  
moved. No man suffering with pneu-  
monia can be moved out of the county  
and should the state of California look  
into the matter it may force the county  
to return all patients to the county after  
they recover. Another reason that can  
be well advanced is that money that  
would be well distributed in this county  
would go into the coffers of outside peo-  
ple. The county hospital business affair  
is easy of solution. All that is necessary  
to have the affair looked into carefully  
and let none receive benefits unless en-  
titled thereto. Gross carelessness has  
been displayed in the management of  
hospital affairs the past year and if the  
wrongs are righted patients can in the  
main be kept here as cheaply as in Cali-  
fornia.

John Barry had the knee cap of one of  
his knees badly injured at the Minnesota  
mine last Monday, in the following man-  
ner: As he was passing by his house  
to the mine he saw Mrs. Barry fixing  
hoops on an empty barrel and warned  
her of the dangerous position in which it  
stood, and passed on down the hill.  
When a short distance away he heard a  
loud scream from his wife and turning  
around he saw her falling headforemost  
into the barrel. He sprang forward to  
extricate his wife and landed on the end  
of a piece of timber that happened to be  
balanced over a rock. The other end  
was forced upward striking him a ter-  
rible blow on the knee. His wife had in  
the meantime succeeded in releasing  
herself from her unpleasant predicament  
and went to the assistance of her hus-  
band. Dr. Smith was sent for and when  
he arrived the limb was so badly swollen  
that it was impossible to ascertain the  
extent of the injury. Mrs. Barry brought  
him to town Wednesday and he de-  
parted for Los Angeles the same evening.  
He will go into the Sisters hospital at  
that place for treatment.

A New Orleans little boy sat on a box  
of dynamite to tie his shoe, and no one  
knew where the little boy flew with his  
untied shoe.

The trial of John O. Dunbar has been  
continued until after the meeting of the  
Supreme court.

Mohave county is the only section of  
Arizona that can manage to produce ore  
at the present low price of silver.

A small bottle of gold dust will cause  
a greater stampede among miners than  
will almost any other kind of gold pros-  
pect.

Yavapai county has a gold fever on at  
present. It will probably develop into a  
well defined case of lung fever before  
winter is over.

The clerk of the Maricopa county  
board of supervisors seems to have been  
the only one in the country who complied  
with the law in regard to filing an an-  
nual statement.

Escapes from Yuma are seldom suc-  
cessful. Last week Zack Booth got  
away from the prison, but was captured  
by Indian trappers near Harqua Hala  
and taken back to prison.

Iowa can produce more senatorial as-  
pirants in a given length of time than  
any other state in the Union. There are  
seven already on the list for the place of  
J. F. Wilson, the retiring Senator.

Republican papers of Arizona do not  
seem to realize that it was republicans  
who aided the democratic administra-  
tion to further demonetize silver and  
contract the volume of currency.

And now the only J. L. Sullivan wants  
to fight the winner of the Mitchell-Cor-  
bett fight. It is a curious fact that since  
John was whipped by Corbett he has  
seldom been accused of being drunk and  
disorderly.

A wife who is petitioning a Brooklyn  
court for a divorce alleges that her hus-  
band has been in the habit of driving out  
to the cemetery, showing her the graves  
of his first and second wives, and telling  
her that he intends to bury her beside  
them at an early day. No wonder she  
became disheartened and miserable.—

An interesting case for the student of  
the ways of a woman's heart to ponder  
is that of an Oakland, Cal., woman, who  
a few months ago brought suit for di-  
vorce; shot her husband in her jealous  
rage while the case was pending, nursed  
him through the illness that ensued, fell  
in love with him all over again, and is  
now living with him happy as a dove.

Last Saturday morning Sheriff Ros-  
borough went out to White Hills and  
arrested a woman of ill-repute, who trav-  
els under the euphonious name of Big  
Georgia. She is charged with having caus-  
ed the death of Peter Perry, at Williams,  
one day last week, by administering an  
over dose of morphine. The woman was  
brought to Kingman Sunday night and  
Sheriff Donahoe of Coconino county took  
her up to Flagstaff Monday morning.  
She has been held to await the action of  
the grand jury by the examining magis-  
trate.

## Beware of Ointments for Catarrh that Con- tain Mercury.

As mercury will surely destroy the  
sense of smell and completely derange  
the whole system when entering it  
through the mucous surfaces. Such ar-  
ticles should never be used except on  
prescriptions from reputable physicians,  
as the damage they will do is ten fold to  
the good you can possibly derive from  
them. Hall's Catarrh Cure, manu-  
factured by F. J. Cheney & Co., inter-  
nally, acting directly upon the blood and  
mucous surfaces of the system. In buy-  
ing Hall's Catarrh Cure be sure you get  
the genuine. It is taken internally and
